**The comfort of
nature, that lasts.**

Crafted in Latvia

Content

About us.

EKJU is a Latvian company founded in 1992, dedicated to manufacturing practical and long-lasting outdoor wooden furniture of the highest quality.

Since 2021, EKJU, EKJU UK and AMATA belongs to a holding company AMATA, owned by the existing management team, that will now press ahead with further growth plans within the AMATA umbrella, using the same formula with the help of its valued existing employees.

We believe that wood of great quality creates a profound connection with nature. With Northern European wood, we keep our ancient Latvian woodworking traditions alive.

Since the very beginning, we have had high standards for our materials, only using wood with high density and quality. Every EKJU product is carefully produced with love for nature, detail and craftsmanship.

EKJU quality

We are Latvian craftspeople who work with attention to detail and the end-user in mind.

Our expertise lies in the extensive know-how we have accumulated over the years working with live wood. EKJU ensures that the final product is made from high-quality raw stock. We carefully select our suppliers and choose only the timber grown in the North because of its high density and durability.

Our simple step-by-step manuals make it easy for consumers to assemble our products.

We are a company with more than 30 years of experience and treat the products we create with pride and responsibility.

Pressure treatment.

Pressure treatment is an effective way to increase product durability with protection fungus, decay and weathering. We use a preservative system based on the well-established effectiveness of copper combined with an organic quaternary compound that is applied to timber under pressure. Pressure-treated timber boasts lasting protection against fungi, insects such as woodworm, and the elements. We take responsibility for our manufactured goods in case of rot. EKJU products will serve you for a long time. It is highly recommended to restore the wooden surface regularly (once every 4-5 years) using a suitable product.

Green impregnation

Grey impregnation

Brown impregnation

Orange dipping

Grey dipping

Grey linseed oil stain

Painted with high quality TEKNOS paint – Black

Eco treatment

Our eco-friendly linseed oil painted and stained product selection shows our commitment to sustainability with its water repellent and UV protective properties. A surface coated with ecopaint or stain is easily renewable, we recommend reapplication every 2-3 years.

Linseed oil stain

Stain is highly pigmented boiled linseed oil that highlights the structure of wood. Boiled linseed oil is the main ingredient of the stain. Finely ground pigments provide an protection from moisture. It does not peel or crack. The surface is easily renewable.

Water-based flowcoat painting.

Brighten up your garden by adding colour and creativity. Our flow coat treatment is designed for decorative finishes.

From idea to product.

1. CUSTOM DESIGNS AND PRODUCTS

EKJU encourages to design your own products that will be produced for you. We develop the design together with the customer so that the final product meets the exacting customer requirements.
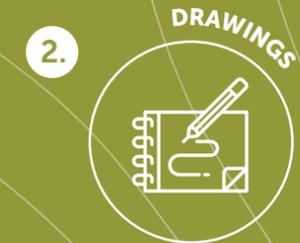

2. DRAWINGS

We offer detailed drawings and specifications, prototypes and production at volume.

3. WEB AND CATALOGUE SUPPORT
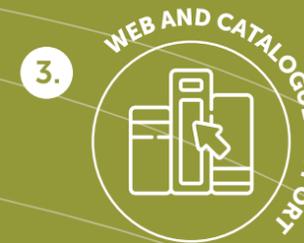

EKJU's in-house photo studio provides high-quality pictures for every product.
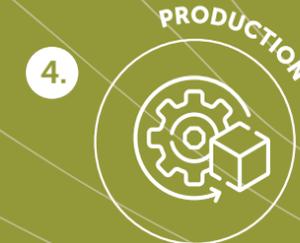

4. PRODUCTION

The production facilities enables us to adapt to the customer's demand as much as possible, ensuring the development of specific products and fast lead time.

5. PACKING AND LOGISTICS

Large orders of EKJU products are fully suitable for transportation by lorries. Each product is safely packaged and then secured to pallets for ease of transportation. We pay extra attention to ensuring that products sold online are as dry as possible, with our specially - designed packaging.

EKJU Classic.

Our furniture is manufactured according to the latest technological processes while keeping it functional.

Designs are modern and widely used.

Tables & Sets.

The early evening sun is stretching across your garden, inviting the tree branches to dance in the warm summer breeze. It is neither too cold nor too hot. Just right to enjoy the weather. Our table sets bring exactly the harmony you seek when enjoying a dinner for two, or quality time with family.

Benches & Chairs.

After a hard day's work it always feels great to stretch out and just take it all in. Look back on the accomplished tasks of that day with a calm heart, or share a private conversation with your significant other.

Thermally modified wood.

Thermo-D wood is a thermally modified wood that is both eco-friendly and non-toxic. Through heat treatment, this wood undergoes a process that enhances its resistance to decay and weather conditions, improves its thermal insulation capacity, and ensures dimensional stability even in environments with fluctuating moisture levels.

At our company, we exclusively source Termowood from suppliers who are authorized to use the ThermoWood® trademark. This guarantees that the production process adheres to the same criteria and standards.

The properties of thermally modified wood are numerous. It is eco-friendly and non-toxic, making it particularly suitable for children and animal products. It maintains its size and shape, exhibits increased stability and durability, and has resin removed. Additionally, it offers improved wood preservation and weather resistance, reduced splitting, enhanced dimensional stability, and consistent coloring throughout the wood.

Picnic table 180

Product code: **58499-T0**
Size (cm): **177x153xh76**
Material thickness (mm): **42**
CO2 stored (eqv.kg per product): **88**

Children table Mini

Product code: **253540**
Size (cm): **360x330xh240**
Material thickness (mm): **28/42/68**
CO2 stored (eqv.kg per product): **72**

Garden storage & log store.

Garden Storage Cabinet "Piltene"

Product code: **232134**
Size (cm): **131x48xh170/180**
Material thickness (mm): **15/28**
CO_2 stored (eqv.kg per product): **116**

Outdoor Shelf

Product code: **57924**
Size (cm): **49x46xh162**
Material thickness (mm): **15/28**
CO_2 stored (eqv.kg per product): **41**

Triangular Log Store

Product code: **32215**
Size (cm): **78x39xh116**
Material thickness (mm): **15/42**
CO_2 stored (eqv.kg per product): **19**

NEW

Outdoor storage cupboard

Product code: **32258**
Size (cm): **155x107xh117/108**
Material thickness (mm): **15/28**
CO_2 stored (eqv.kg per product): **116**

Log Storage

Product code: **32261**
Size (cm): **173x64xh178/162**
Material thickness (mm): **15/28**
CO_2 stored (eqv.kg per product): **64**

Log Storage

Product code: **32260**
Size (cm): **119x64xh118/102**
Material thickness (mm): **15/28**
CO_2 stored (eqv.kg per product): **37**

Garden additions.

Trellis

Product code: **50002**
Size (cm): **180x60xh2**
Material thickness (mm): **10**
CO2 stored (eqv.kg per product): **1**

Trellis

Product code: **50003**
Size (cm): **180x60xh2**
Material thickness (mm): **10**
CO2 stored (eqv.kg per product): **1**

Trellis

Product code: **50004**
Size (cm): **18/60xh180xh2**
Material thickness (mm): **10**
CO2 stored (eqv.kg per product): **1**

Tile

Product code: **254016**
Size (cm): **40x40xh2.4**
Material thickness (mm): **12**
CO2 stored (eqv.kg per product): **1**

Tile

Product code: **254017**
Size (cm): **50x50x2.4**
Material thickness (mm): **12**

Product code: **254048**
Size (cm): **50x50xh36**
Material thickness (mm): **18**
CO2 stored (eqv.kg per product): **11**

Tile

Product code: **254049**
Size (cm): **100x100xh3.6**
Material thickness (mm): **12**
CO2 stored (eqv.kg per product): **11**

Mision CO$_2$ ZERO.

All wood leftovers are reused for heating our own facilities and timber drying kilns. Nothing goes to waste.

In our study (2023) we calculated, that Carbon removed from the atmosphere and stored into material goods and final products amounted to 7173 tonnes of CO2 equivalent.

■ Scope 1   ■ Scope 2   ■ Scope 3

ZERO Waste.

We craft our furniture with a respect for nature.

We know, that if well maintained, the lifespan of EKJU furniture exceeds the growth of new tree (70-80 years).

All wood leftovers are reused for heating our own facilities and timber drying kilns. Nothing goes to waste

By supporting responsible wood sourcing and forest management, we keep our promise of being environmentally friendly.

The mark of
responsible forestry

Forestation.

Forest regrowth takes a long period of time, regardless of whether it is restored in the natural way or with human assistance. Every year, EKJU employees and with their family members plant new forests, contributing to the forest regeneration process.

Facts about wood.

We create outdoor furniture with respect for the unique details in every piece of wood, which gives your furniture its personality.

Wood can affect the material tolerance due to its natural properties characteristics.Therefore, our wooden products have +/- 2mm tolerance.

Real solid wood is alive.

These natural, live wood characteristics are proof, that our products are made from real solid wood, grown in harsh Nordic forests and now, bringing you pleasure and joy.

Wood cracks

Wood resin

Uneven texture and colour of wood

Wood fiber

Impregnation fluid

Don't forget to tighten up all screws and bolts time to time

Wood branches

Twisting & bending

Maintenance.

The natural materials the furniture is made from are specially treated to withstand environmental damage.

However, over time the treated wood begins to lose its original colour. Despite the colour change, its sturdiness stays the same, as the impregnating agent continues to protect the wood.

To restore or paint our garden furniture, simply ask for advice at a local DIY store. They will suggest the most suitable treatment to use.

Staying abreast of the ongoing development of the woodworking industry, "Ekju" LTD reserves the right to, without prior consent, modify the appearance and technical specifications of the product.

Logistics.

Large orders of EKJU products are fully suitable for transportation by lorries. Each product is safely packaged and then secured to pallets for ease of transportation.
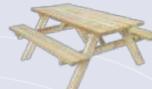

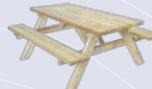

EKJU has also developed an online packaging system suitable for our impregnated garden products. We pay extra attention to ensuring that products sold online are as dry as possible, with our specially-designed packaging.

The Ecommerce range concept delivers the same EKJU quality product, already packed suitably for a home delivery. This supports retailers that sell direct to the public as they do not need to prepare packaging material for these products' deliveries to their online customers, saving time and resources.
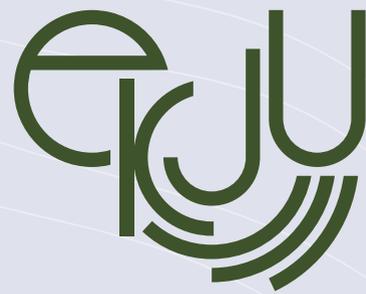

E-commerce product list.

Following products are kept in stock and available all year round. Products not on this list are available only on order. Standard minimal quantity 200 pcs. Valid until 31.12.2024

Product code	Photo	Description	Impregnation	Product dimensions (cm)	Weight (kg)	Packaging dimensions (cm)	PCS on pallet
